Specializing in the ancient Near East and biblical studies since 1975

## Babel und Bibel 6

edited by Leonid Kogan

This is the sixth volume of *Babel und Bibel*, an annual of ancient Near Eastern, Old Testament, and Semitic studies. The principal goal of the annual is to reveal the inherent relationship between Assyriology, Semitics, and biblical studies—a relationship that our predecessors comprehended and fruitfully explored but that is often neglected today. The title *Babel und Bibel* is intended to point to the possibility of fruitful collaboration among the three disciplines, in an effort to explore the various civilizations of the ancient Near East.

The tripartite division of *Babel und Bibel* corresponds to its three principal spheres of interest: ancient Near Eastern, Old Testament, and Semitic studies. Contributions are further subdivided into articles, short notes, and reviews. Highlights of this volume include several studies on Akkadian language, Mesopotamian literature, and publication of inscriptions in some Russian museums (in the ancient Near Eastern section); studies on negative markers in Semitic and on Aramaic language (in the Semitics section); and some significant review essays on important new publications, especially in Hebrew language, Aramaic, Hurrian, Lycian, Egyptian, and Syriac.
